Private label supplements, from formula to finished product

Seven production lines, custom shapes and packaging, and full documentation for every batch. Start from a ready formula, use

7 formats

Private label supplements, from formula to finished product

Seven production lines, custom shapes and packaging, and full documentation for every batch. Start from a ready formula, use our calculator, or send us your brief.

Seven production lines

Gummies, softgels, hard capsules, tablets, powders, liquid drops and herbal jelly under one roof.

Full customisation

Formula, shape, size, colour, flavour and packaging tailored to your brand.

Third-party tested

Independent laboratory testing so the label matches what is in the product.

Certified production

Manufactured in GMP, ISO 22000, ISO 9001 and HACCP certified facilities; certificates on request.

Consistent batches

Precise dosing and in-process controls to keep every batch on specification.

Packaging and design

Bottles, jars, pouches and dropper bottles, with label design support.

Confidentiality

Your formulas and brand are protected by confidentiality agreements.

Fast sampling

Samples before production so you can test taste, texture and format.

Quality and compliance

- Raw material checks before production
- In-process controls for weight, dosing and appearance
- Independent third-party laboratory testing of finished products
- Batch traceability from raw material to finished goods
- CoA, specifications and compliance documents for every batch

How it works

From the first briefing to the delivered batch.

5 steps

How it works

From the first briefing to the delivered batch.

How it works

STEP	WHAT HAPPENS
01 · Briefing	You share the product idea, target market, format and volumes.
02 · Formulation	We define the formula with our ingredients and check it against the rules of your market.
03 · Samples	You receive samples to test before committing to production.
04 · Production	Manufacturing and packaging under your brand, with batch traceability.
05 · Delivery	Delivery with the certificate of analysis, specifications and compliance documents.

01

Private label gummies

Chewable gummies in custom shapes, sizes and flavours, with pectin, gelatin or blended bases and sugar or sugar-free recipes.

8 options

Private label gummies

Chewable gummies in custom shapes, sizes and flavours, with pectin, gelatin or blended bases and sugar or sugar-free recipes.

Gummy depositing line

Gummies for supplement brands

Gummies are one of the most popular supplement formats. We produce them on dedicated depositing lines, with your choice of base, shape, colour, flavour and coating.

How to plan a gummy product

- **Dose per piece:** decide how many gummies make one serving; most brands use one or two.
- **Base:** pectin for vegan claims, gelatin for a classic chewy texture.
- **Sugar:** sugar-free recipes suit products for daily use.

Customisation options

Private label gummies

OPTION	DETAIL
Weight per piece	2 g to 5 g, customised to your dose
Shape	Standard moulds or custom mould development
Colour	Wide range of natural or artificial colours
Flavour	Fruit, sour, herbal and functional flavours
Base	Pectin (vegan), gelatin or blended gums
Sugar	With sugar, reduced sugar or sugar-free
Coating	Sugar-coated, sour-sanded or uncoated
Gluten-free	Gluten-free recipes available

Standard sizes

Private label gummies

SIZE	REFERENCE	FILL / WEIGHT
Bear	bear	3 g
Heart	heart	3 g
Star	star	2.5 g
Sphere	sphere	3 g
Square	cube	2.5 g
Petal	flower	4 g
Raspberry	berry	3 g
Apple	apple	2 g

Recommended packaging

- Jar Clear
- Jar Black
- Bottle White
- Pouch

Questions

What is the minimum gummy weight?

Pieces from about 2 g; 2.5 g to 4 g is the most common range for supplements.

Can you make vegan gummies?

Yes. Pectin-based gummies are suitable for vegan and vegetarian products.

Can I have a custom shape?

Yes. Choose from our standard moulds or ask for a custom mould for your brand.

02

Private label softgels

Soft capsules for oils and oil-soluble actives, in oval, oblong, fish and round shapes, with custom shell colours and fill weights.

6 options

Private label softgels

Soft capsules for oils and oil-soluble actives, in oval, oblong, fish and round shapes, with custom shell colours and fill weights.

Automatic bottle filling and capping line

Softgels for oils and oil-soluble actives

Softgels protect oils from oxidation and are easy to swallow. We produce them in a wide range of shapes and fill weights, from small vitamin D softgels to 1,000 mg fish oil.

See also our [softgels in stock in the EU](#), ready for bottling under your brand.

Customisation options

Private label softgels

OPTION	DETAIL
Formula	Fish oil, vitamins, plant oils and oil-soluble actives
Shell size	From 160 mg to 3,000 mg fill
Shell colour	Clear, amber, red or custom colours
Fill colour	Natural oil colour or coloured fills
Viscosity	Formulated for stable, uniform filling
Shape	Oval, oblong, fish, round and twist-off shapes

Standard sizes

Private label softgels

SIZE	REFERENCE	FILL / WEIGHT
4# oval	oval	160–180 mg
7.5# oval	oval	200–250 mg
10# oval	oval	300–400 mg
Fish	fish	300–500 mg
10# oblong	oblong	400–450 mg
12# oval	oval	500–600 mg
20# oblong	oblong	1,000 mg
40# round	round	3,000 mg

Recommended packaging

- Bottle White
- Jar Black
- Jar Clear
- Pouch

Questions

Which actives can go in a softgel?

Oils and oil-soluble actives such as fish oil, vitamins A, D, E and K, coenzyme Q10 and plant oils.

What is the most common softgel size?

500 mg to 1,000 mg oval or oblong softgels are the most common for fish oil and vitamin products.

Can the shell be coloured?

Yes. Clear, amber, red and custom shell colours are available.

03

Private label hard capsules

Hard capsules for powders and blends, in sizes 00 to 3, with gelatin or plant-based (HPMC) shells in custom colours.

5 options

Private label hard capsules

Hard capsules for powders and blends, in sizes 00 to 3, with gelatin or plant-based (HPMC) shells in custom colours.

Automatic bottle filling and capping line

Capsules for powders and blends

Hard capsules are the most versatile format for botanical extracts, vitamins and blends. Use our [formula calculator](#) to see how many capsules your formula needs per serving.

Fill weights depend on density

The fill weights above are typical ranges. Light, fluffy extracts fill less; dense or granular powders fill more. We confirm the final fill weight with a sample.

Customisation options

Private label hard capsules

OPTION	DETAIL
Formula	Botanical extracts, vitamins, minerals, amino acids and blends
Capsule size	00, 0, 1, 2 and 3
Shell	Gelatin or plant-based (vegan) shells
Capsule colour	Clear, white or custom colours, one or two-tone
Powder colour	Natural colour of the blend

Standard sizes

Private label hard capsules

SIZE	REFERENCE	FILL / WEIGHT
Size 00	capsule-00	0.70–1.00 g · 23.3 mm
Size 0	capsule-0	0.50–0.65 g · 21.7 mm
Size 1	capsule-1	0.35–0.45 g · 19.4 mm
Size 2	capsule-2	0.25–0.35 g · 18.0 mm
Size 3	capsule-3	0.20–0.30 g · 15.9 mm

Recommended packaging

- Bottle White
- Jar Black
- Jar Clear
- Pouch

Questions

How much powder fits in a size 00 capsule?

About 0.7 to 1.0 g, depending on the density of the powder. Our formula calculator estimates the fill per capsule.

Do you offer vegan capsules?

Yes. Plant-based (HPMC) shells are available in all common sizes.

Which capsule size is most common?

Size 0 and size 00 are the most common for supplements; size 0 is easier to swallow.

04

Private label tablets

Compressed tablets in round, oval, caplet, triangle, heart and bone shapes, from 150 mg to 1,500 mg, coated or uncoated.

5 options

Private label tablets

Compressed tablets in round, oval, caplet, triangle, heart and bone shapes, from 150 mg to 1,500 mg, coated or uncoated.

Automatic bottle filling and capping line

Tablets for vitamins, minerals and extracts

Tablets combine high doses in a compact format and are cost-efficient to produce at scale. Granular grades of many of our ingredients are designed for direct compression.

Customisation options

Private label tablets

OPTION	DETAIL
Formula	Vitamins, minerals, extracts and blends
Colour	Natural or film-coated in custom colours
Size	From 7 mm round to 21 mm caplets
Weight	150 mg to 1,500 mg per tablet
Shape	Round, oval, captab, triangle, heart, bone or custom

Standard sizes

Private label tablets

SIZE	REFERENCE	FILL / WEIGHT
Round 7 mm	round	150–180 mg
Round 9 mm	round	250–300 mg

Private label tablets

SIZE	REFERENCE	FILL / WEIGHT
Round 13 mm	round	500 mg
Oval 14.3 × 7 mm	oval	500 mg
Triangle 12.4 mm	triangle	500 mg
Captab 16 × 8 mm	captab	700 mg
Oval 18.5 × 9 mm	oval	700–800 mg
Bone 16.5 × 7.3 mm	bone	800 mg
Captab 19.1 × 8.1 mm	captab	900–1,050 mg
Oval 21 × 11 mm	oval	1,400 mg
Heart 21 × 18 mm	heart	1,500 mg

Recommended packaging

- Bottle White
- Jar Clear
- Jar Black
- Pouch

Questions

What is the largest tablet you can make?

Up to about 1,500 mg per tablet, in oval, caplet and heart shapes.

Can tablets be coated?

Yes. Film coating in custom colours protects the tablet and makes it easier to swallow.

Can I have a custom tablet shape?

Yes. Besides our standard shapes, custom punches can be made for your brand.

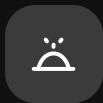

05

Private label powders & blends

Functional powders and blends for drinks and shakes, with custom flavour, colour and solubility, in tubs, pouches or sachets.

6 options

Private label powders & blends

Functional powders and blends for drinks and shakes, with custom flavour, colour and solubility, in tubs, pouches or sachets.

Cleanroom production area

Powders and blends

Powders allow high doses and creative flavours. Build your blend with our bulk ingredients, from [amino acids](#) to [botanical extracts](#).

Customisation options

Private label powders & blends

OPTION	DETAIL
Formula	Superfood, protein, electrolyte, greens and functional blends
Powder colour	Natural colour of the blend or adjusted
Drink colour	Colour of the prepared drink
Flavour	Fruit, chocolate, vanilla, unflavoured and more
Solubility	Instant grades for easy mixing
Serving	Scoop size and dilution ratio set to your dose

Recommended packaging

- Pouch
- Jar Clear
- Jar Black

Questions

Can powders be packed in single-serve sachets?

Yes. Stick packs and sachets are available as well as tubs and pouches.

Can you make the powder dissolve easily?

Yes. Instant grades of amino acids and other ingredients are used for fast mixing.

Can I adjust sweetness and flavour?

Yes. Sweetness, acidity and flavour are tuned to your brief and tested in samples.

06

Private label liquid drops

Liquid drops in 30, 60 and 120 ml dropper bottles, with custom formula, colour, flavour, sweetness and viscosity.

6 options

Private label liquid drops

Liquid drops in 30, 60 and 120 ml dropper bottles, with custom formula, colour, flavour, sweetness and viscosity.

Automatic bottle filling and capping line

Liquid drops

Drops are easy to dose and popular for vitamins and botanical blends. Amber glass protects light-sensitive ingredients.

Customisation options

Private label liquid drops

OPTION	DETAIL
Formula	Water-based extracts, vitamins and functional blends
Colour	Natural or adjusted colour
Flavour	Fruit, mint, neutral and more
Sweetness and acidity	Adjusted to your taste profile
Viscosity	From light drops to syrup-like textures
Volume	30 ml, 60 ml and 120 ml

Standard sizes

Private label liquid drops

SIZE	REFERENCE	FILL / WEIGHT
30 ml	dropper-30	Amber glass dropper

Private label liquid drops

SIZE	REFERENCE	FILL / WEIGHT
60 ml	dropper-60	Amber or clear dropper
120 ml	dropper-120	Amber glass dropper

Recommended packaging

- Dropper Amber
- Dropper White

Questions

Which bottle sizes are available?

30 ml, 60 ml and 120 ml dropper bottles, in amber glass or other options.

Can oil-based drops be made?

Standard drops are water-based with sweetness and acidity adjusted; ask us about oil-based formulas.

Can I choose the dropper and cap colour?

Yes. Dropper, cap and bottle options are part of the packaging customisation.

07

Private label herbal paste & jelly

Concentrated herbal pastes and jellies with custom formula, colour, flavour and viscosity, packed in 30 g and 50 g jars.

5 options

Private label herbal paste & jelly

Concentrated herbal pastes and jellies with custom formula, colour, flavour and viscosity, packed in 30 g and 50 g jars.

Liquid filling nozzles

Herbal paste and jelly

Pastes are a premium format for resins such as shilajit and for concentrated herbal blends. See our [shilajit extract](#) in EU stock.

Customisation options

Private label herbal paste & jelly

OPTION	DETAIL
Formula	Herbal extracts, resins and functional blends
Colour	Natural colour of the ingredients
Flavour	Adjusted to your taste profile
Viscosity	From soft jelly to thick paste
Size	30 g and 50 g jars

Standard sizes

Private label herbal paste & jelly

SIZE	REFERENCE	FILL / WEIGHT
30 g jar	jar	Paste or jelly
50 g jar	jar	Paste or jelly

■ Recommended packaging

- Jar Black
- Jar Clear

■ Questions

Which jar sizes are available?

30 g and 50 g jars are standard; ask us for other sizes.

Is a spoon included?

A measuring spoon can be added as part of the packaging.

Which ingredients suit a paste?

Resins such as shilajit, herbal extracts and honey-based blends are common.
