05

How a project works

From the first briefing to the delivered batch.

5 steps

How a project works

From the first briefing to the delivered batch.

How a project works

STEP	WHAT HAPPENS
01 · Briefing	You share the product idea, target market, format and volumes.
02 · Formulation	We define the formula with our ingredients and check it against the rules of your market.
03 · Samples	You receive samples to test before committing to production.
04 · Production	Manufacturing and packaging under your brand, with batch traceability.
05 · Delivery	Delivery with the certificate of analysis, specifications and compliance documents.
